

ANNOUNCING UNM CARDIOLOGY CLINIC ON WESTSIDE

June 23, 2011

Dear Patient & Colleague:

I am pleased to announce I have joined the cardiology faculty at the University of New Mexico effective immediately. My new office will be located at 4808 McMahon Blvd NW, directly next door to my former office. Beginning July 18, 2011, patients will be seen at this location Monday through Friday, 8 AM to 5 PM. In the meantime, I will be seeing patients in the UNM Cardiology Department Clinic at UNM Hospital. Appointments may be scheduled by calling 505.925.6001. My office will continue to provide the full spectrum of heart and vascular care from consultation to non-invasive cardiovascular testing.

I remain committed to providing the highest quality cardiovascular services, and I look forward to caring for established and new patients. UNM participates in almost all insurances. As always, patients who require hospitalization or hospital-based procedures may continue to select their hospital based upon their preference and/or insurance. Dr. Abinash Achrekar will be joining me in our new office to ensure cardiologist availability Monday through Friday. With the opening of this office and the future opening of UNM Sandoval Regional Medical Center, UNM is clearly demonstrating their commitment to the Westside.

This is an exciting transition for me. It allows me to continue to care for your patients and also help train the next generation of cardiologists. Thank you for your support over the years, and I hope I may continue to assist you in the management of your patients.

Sincerely,

Robert Dubroff, MD, FACC
